Graduate Enrichment: Funding Opportunities

Cyeberlearning and Future Learning Technologies (Click title for article)

Sponsor: National Science Foundation, Directorate for Computer and Information Science and Engineering

Amount: $750,000

Deadline: January 13, 2020

Focus Area: The purpose of this program is to fund exploratory and synergistic research in learning technologies to prepare learners to excel in work at the human-technology frontier. This program responds to the pressing societal need to educate and re-educate learners of all ages (students, teachers and workers) in science, technology, engineering, and mathematics (STEM) content. This program funds learning technology research in STEM and other foundational areas that enable STEM learning.

Ocean Health Grant (Click title for article)

Sponsor: 11th Hour Racing

Amount: $100,000

Deadline: September 23, 2019

Focus Area: 11th Hour Racing seeks to advance innovative projects that improve the health of our oceans and address the dynamic environmental challenges facing the sailing and marine communities. Examples of potential projects include but not limited to, reducing ocean pollution, climate change and water quality issues.

Can Economics Fix Its Gender-Imbalance Problem? It'll Take More Than Research, Women Say (Click title for article)

By: Lily Jackson

Date: January 11, 2019

Summary: Many women are beginning to speak out about the gender bias in economic fields within higher education. The article gives ideas on how to approach the issue and how to encourage female undergraduate students to continue their education in economics. Many believe a mentorship program where female economics students can connect to female faculty members could lead to a solution.
