### Resilience-Building for Personal and Academic Success

Resilience, or the ability to overcome or cope with life's challenges or stressors, is a critical component of both academic and personal success. Students from underrepresented communities (first-generation students, students of color, and LGBTQ+ students) face unique challenges. Join us to learn about resilience-building techniques and how to overcome obstacles in the path of your success. Memorial Union Coconino (Room 246)

**Register:** <https://www.eiseverywhere.com/352569>

OCTOBER

2

4:30 p.m.

### Solving Wicked Problems: interdisciplinary Collaboration and Action Research

Interdisciplinary collaboration and action research allow for novel applications of research in the service of new solutions to persistent problems. Join us as a panel of interdisciplinary graduate researchers discuss how they collaborate and create unconventional partnerships – with other fields, with communities and research constituents -- to solve some of society's most challenging problems. Memorial Union La Paz (Room 242)

**Register:** <https://www.eiseverywhere.com/352571>

November

6

4:30 p.m.

### First-Generation Graduate Success Panel

For first-generation students, navigating the graduate school environment can be especially challenging. Join us as a panel of first-generation master's and doctoral students discuss their experiences, challenges, and the support systems that allowed them to successfully navigate and thrive in their graduate careers. Memorial Union La Paz (Room 242)
